

Klangfolk e.V.

We share the joy of making music and dancing with people from all over the world. Together we develop new versions of traditional music and dances

Open-Space-Music

We meet as an open music-ensemble to redesign traditional music of known and foreign cultures according to our possibilities. All levels of competences in playing music are welcome (beginners to professionals).

Tänze aus aller Welt

Every fourth Friday of the month you can sign in a small dance class, with dances from different cultures, partly with live music from various music groups.

Música con Señas

Learn the sign language Música con Señas and experience how much fun it is to improvise and create music together. Both beginners and advanced musicians are welcome!

Workshops

Klangfolk offers music and dance workshops with various topics

Fest (ival)

Once a year we organize an intercultural Klangfolk Festival with guests from all over the world. In the pandemic time we limit ourselves to a smaller Klangfolk festival with presentations, space for encounters and workshops.
